HIA Build Your Future Scholarships – Round Three Winners

HIA's Build Your Future program recently awarded scholarships to 18 successful participants across Australia.

In New South Wales, four participants were announced amongst the round three winners; Ben Lamble, Sean Hillman, Adam Shalders and Chris Rawlins.

With major support from JELD-WEN Australia and Stratco, the HIA Build Your Future Training Scholarships provide the opportunity for young tradespeople to achieve the necessary qualifications towards obtaining a trade licence and in turn increase the industry's future skilled workforce.

The value of individual scholarships can range up to \$6,500 per person. With the cost of training courses often out of reach for these people, the scholarships help offset some of the financial burden by supporting them through a range of HIA courses.

Nominations are now being sought for the fourth series of training scholarships.
